

Abalone & Swarovski Pearl Bracelet Kit

Material

1 Oblong Abalone clasp
4 x 3 hole spacer bars
30 x 25mm eye pins
59 Swarovski 6mm crystal pearls
(to match 3 colours from the clasp)
1 Swarovski 4mm crystal pearl (to
fill the missing colour from above)

Retail: \$29.10 post free

Tools required (not included in kit)

Fine round nose pliers
Set of jeweller's pliers or chain nose pliers
Pair of side cutters

Instructions

Read all instructions before starting and note that the number of rows can be reduced or increased to suit wrist size. Size as per instructions and material supplied is 19cm.

- Place 2 pearls (in alternating colours) on 3 eye pins (use the 4mm pearl on one) and make a loop with your round nose pliers on the other end of the pin (cut off excess to ensure loops are the same size on each end).
- Join the pin with the small pearl in the middle and touching the trigger end of the clasp.
- Ensure colours alternate and join the other 2 pins to the trigger end of the clasp.
- Make up another 3 pins in same way and join to the first three.
- When you make the 3rd set of pins they should be placed through the spacer bar (ensure colour sequence is maintained) then joined to the second row with the spacer bar at that end.
- Continue as above until all parts are used ensuring colour sequence and noting a pattern that shows two rows of pins and a spacer bar followed by two more rows of pins and another spacer bar etc.
- Join the last row to the main piece of the clasp.
