

ABALONE AND SWAROVSKI PEARL FRONT CLASP CHOKER

Parts

- 1 Abalone clasp
- 2 x 4mm Swarovski Pearls
- 40 x 6mm Swarovski Pearls
- 3 x 8mm Swarovski Pearls

Note: Pearls should be matched to the colours of the clasp.

Findings

- 30 to 35 cm fine chain
- 2 x 3 to 1 end connectors
- 12 x 28mm eye pins
- 2 x 25mm head pins
- 1 x 38mm head pin
- 4 x 4mm jump rings
- 2 x 5mm jump rings
- 2 x 6mm jump rings
- 2 x 5mm split rings

Retail: \$32.80 post free.

Step 1

Open clasp and working on main piece, connect 1 x 25mm eye pin (one at a time). Place 3 x 6mm pearls and complete loop on the end of the pin. Connect another eye pin with 3 pearls to the first pin and finish with another loop. Repeat on the other 2 rows.

Step 2

Place pearls on head pins as in picture and connect to the bottom of the main piece of the clasp with a loop. The holes for connecting are at the back of the clasp.

Step 3

Use a 4mm jump ring to join the top row of pearls to the top loop of the connector. Use a 5mm jump ring on the middle loop of the connector and a 6mm jump ring on the bottom. This will help to balance the curve of the choker so that it will sit evenly.

Step 4

Connect an eye pin to the middle loop on the small piece of the clasp and add 3 pearls and complete loop on the end of the pin. Add another eye pin with 3 more pearls and finish with a loop. Use a 4mm jump ring to connect an eye pin to the top loop of the clasp and another to connect an eye pin to the bottom loop. Add 3 pearls and finish with a loop then add another eye pin with 3 pearls and finish off with a loop.

Step 5

Close clasp together and join rows of pearls to connector with jump rings. Use a 4mm at top, 5mm in the middle and 6mm at the bottom loop.

Step 6

Join chain to one connector with a split ring. Place the choker on recipient to determine the required length of chain. Cut chain and join to other connector with a split ring. If unsure of length then leave it at 35cm (you can always cut it later).
